Job Title	Competence Center Manager
Department	Competence Centers
Location	Frankfurt am Main

TRAXON Europe is the world's leading provider of innovative value-added services to the airfreight industry in the field of e-communications and automation. Since 1991, TRAXON Europe works in close cooperation with its customers to find innovative solutions and anticipate their needs.

For further consistent development of our business in growing and emerging markets we look to complement the team in our Headquarters in Frankfurt am Main with a

Competence Center Manager

To be considered as a successful candidate for this position, you should have the following education or relevant experience:

- Preferably possesses a degree in an IT-or Business Administration related discipline with strong project leadership skills or demonstrable relevant experience in IT and/or product management/marketing/sales
- Strong track record in project management as a leading member of a project team for key and/or international accounts and solid understanding of project management methodology
- Strong English language skills, both verbal and written, additional languages would be a bonus
- Ability to precisely and comprehensibly describe complex situations verbally, in writing and in a presentation setting
- Ability to work under pressure and to think analytically and to apply general guidelines to specific situations

Tasks of the position:

- manage the development and implementation of new/modified/enhanced products using state of the art project management methodology
- research for possible new products for TRAXON in cooperation with Sales & Marketing
- define new or modify/enhance existing products in cooperation with Sales & Marketing
- define business cases for new/modified/enhanced products in cooperation with all departments and strive for a Management Team decision and transfer of new/modified/enhanced products into line organization
- support Sales & marketing in sales and marketing activities before, during and after new/modified/enhanced product implementation
- represent TRAXON in task related industry affairs bodies and working groups

The assignment might be preliminary and/or subject to a final performance evaluation. If this challenge appeals to you, we would be pleased to receive your complete application in English. You are invited to transmit those documents electronically.
